YULETIDE SKIRT

Tree skirts have been a timeless addition to holiday decor in countries across the globe. Believe it or not, the skirt itself had a practical purpose at its beginning! The early beginning of Christmas tree decorating is believed to have started in Germany, where they hung bows and placed candles throughout the tree to bring holiday cheer to the home. Something was needed to catch falling candle wax and thus, the tree skirt was born!

Our tree skirt features multiple quilting techniques for you to decorate every tree in every corner of your house!
